Playing Tips

SPACE BATTLE™

Remember the Star Trek of the 1960s science program days? Wanna re-imagine your childhood?

Strategy mode: (over screen)

- **Right your own ship.**—Select the ship you'd prefer you control (probably not more than two ships) from the "order panel." After a strategic situation arises, then you're engaged.
- **Engage the action.**—If you actually engage your opponent's ship, you may be able to capture the first to be destroyed (second position bonus).
- **Don't be the underdog.**—If you're the underdog, you'll have to be the underdog because that's the way to guarantee you the strategic bonus on the game. It's really a win-win situation for the underdog.
- **Don't be the underdog.**—Don't lose the war... or money. If you're the underdog, it's best to play the underdog your way, not the other way.

strategy is what it is. Don't let a small victory satisfy leaving a position strategically. It's really a win-win situation. If you're the underdog, you'll have to be the underdog because that's the way to guarantee you the strategic bonus on the game. It's really a win-win situation for the underdog.

Single mode:

- **Play a game.**—If you're the underdog, you'll have to be the underdog because that's the way to guarantee you the strategic bonus on the game. It's really a win-win situation for the underdog.
- **Engage the action.**—If you actually engage your opponent's ship, you may be able to capture the first to be destroyed (second position bonus).
- **Don't be the underdog.**—If you're the underdog, you'll have to be the underdog because that's the way to guarantee you the strategic bonus on the game. It's really a win-win situation for the underdog.

SHARP™

Whether you're playing against the computer or against your opponent, you'll want to be the underdog your way, not the other way.

Consumer Affairs

Remember those two lines of print at the top of my T.V. ad for a record of my food habits?

Answer posted:—Yes, a famous saying that traces its origin to the 19th century of 1800. The first was "I have a record of my food habits." It's a famous saying that traces its origin to the 19th century of 1800. The first was "I have a record of my food habits." It's a famous saying that traces its origin to the 19th century of 1800.
